No. 136.

Under the Madras Land Improvement and Agriculturists' Loans (Pumping Installations and Agricultural Machinery or Plant) Rules, 1933, loans for pumping machinery and agricultural plant have hitherto been granted by the Director of Industries and Commerce and the Director of Agriculture, but the instalments of the loans have been collected by the Revenue Department. As this dual authority led to difficulties, it has been decided to transfer the power of granting such loans to Collectors who will be assisted in this duty by the technical advice of the Directors. District Agricultural Officers will, however, continue to grant loans up to Rs. 50 for agricultural machinery. Amendments to the rules to give effect to this decision have been issued.

For convenience of reference, a copy of the rule incorporating all these amendments has been prepared and is annexed

ANNEXURE

THE MADRAS LAND IMPROVEMENT AND AGRICULTURISTS' LOANS (PUMPING INSTALLATIONS AND AGRICULTURAL MACHINERY OR PLANT) RULES, 1933.

I. *Short title and commencement.*—(1) These rules may be called the Madras Land Improvement and Agriculturists' Loans (Pumping Installations and Agricultural Machinery or Plant) Rules, 1933

(2) They shall come into force on the first day of April 1933.

II. *Definitions.*—In these rules—

(a) 'agricultural machinery or plant' includes machinery or plant used for purely agricultural operations such as ploughing, harvesting and threshing or for such preparation of agricultural produce as is usually carried out by the producer such as cane crushing as well as the appliances used for raising water by bullock power or appliances such as sprayers and dusters required in connexion with the control of plant pests and diseases, but does not include machinery or plant for dealing with the agricultural produce of others on a large scale such as rice mills, cotton ginneries and groundnut decorticators,

(b) 'Department' when used with reference to pumping installations means the Department of Industries and Commerce and when used with reference to agricultural machinery or plant means the Department of Agriculture;

(c) 'Director' when used with reference to pumping installations means the Director of Industries and Commerce and when used with reference to agricultural machinery or plant means the Director of Agriculture, and includes the District Agricultural Officers in the case of loans not exceeding Rs. 50 for the purchase of agricultural machinery or plant,

(cc) 'Government' means the Government of Madras;

(d) 'improvement in connexion with a pumping installation' includes digging a well and laying out and improving the land to be irrigated by the installation.

III. *Objects for which loans may be granted.*—Loans may be granted to any owner or occupier of arable land for erecting or completing a pumping installation or for the purchase of agricultural machinery or plant and for carrying out any improvement to the land in connexion with such installation or in connexion with the use of such machinery or plant.

IV. *Mode of application for loans and the amount of loan admissible.*—(1) Every application for a loan shall be made in writing in Form I hereto annexed to the authority or officer competent to sanction the loan under rule X; and the applicant shall, at the same time, supply the authority or officer competent to sanction the loan by entry in the columns of remarks in the said form or otherwise, with information on the following points, namely:—

(i) in case the loan sanctioned is less than the amount required for the scheme, whether the applicant is prepared to supplement the loan by private capital to the extent of the deficiency; and

(ii) the estimated total cost of the proposed scheme and the probable sum that will be occupied in its execution.

(2) The loan granted shall—(i) be a multiple of Rs. 10 when the amount of the loan exceeds Rs. 25 but does not exceed Rs. 250;

(ii) be a multiple of Rs. 50 where the amount of the loan exceeds Rs. 250 but does not exceed Rs. 1,000; and

V. *Local enquiry.*—(1) If the application is for, or in connexion with, the erection of a pumping installation, notice of the loan applied for and of the work proposed shall—

(a) be sent to the Director and the Executive Engineer concerned, and

(b) be put up in the village chavadi or in a conspicuous place in the village if there is no village chavadi.

(2) If, on receipt of the notice of the loan applied for under sub-rule (1) (a) the Director considers that a local inspection by an officer of the department is necessary and any fee has been prescribed in the rules of the department for such inspection, he shall cause notice of the same to be given to the applicant through the authority or officer from whom the notice was received and require the applicant to pay into a Government treasury such fee within a specified time. If the fee is not so paid, the authority or officer competent to sanction the loan may reject the application and send a copy of the order to the Director. If, however, the prescribed fee is paid within the specified time the Director shall make or cause to be made local enquiries about the technical details of the scheme, its feasibility and utility and whether the loan will secure the purpose for which it is required. He shall send a report on these points, together with his recommendation whether the loan may or may not be sanctioned from the technical point of view to the authority or officer from whom the notice was received. If the Director considers that the scheme is not feasible and does not recommend the grant of the loan applied for, the application shall be rejected by the authority or officer competent to sanction the loan and a copy of the order marked to the Director

(3) As soon as may be after the receipt of an application for a loan the authority or officer competent to sanction the loan shall cause local enquiry to be made into the correctness of the particulars furnished in the application, the nature and adequacy of the security offered and the general feasibility of the scheme. Such local enquiry shall be made by the Revenue Inspector or when the loan applied for exceeds Rs. 500, by a Revenue Officer not below the rank of Deputy Tahsildar, provided that in respect of applications for loans not exceeding Rs. 50 each, for the purchase of agricultural machinery or plant or for any other agricultural purpose the authority or officer competent to sanction the loan may cause the local enquiry to be made by an officer of the Agricultural department not below the rank of Assistant Demonstrator. The officer making the local enquiry shall require the village officers to furnish a statement in Form II hereto annexed and shall submit a report in Form III hereto annexed together with his remarks on any objection that may have been received. The authority or officer competent to sanction the loan shall also consider any other objections which may be received by such authority or officer with regard to the grant of the loan.

VI. *Enquiry into the sufficiency of security offered.*—The bona fides and the solvency of the applicant and the sufficiency of the security

offered shall be carefully ascertained before sanctioning a loan. Careful enquiry shall be made regarding the rights of the applicant in the lands to be improved, and the lands, if any, offered as collateral security, in order to ensure that the applicant is the real owner and that the land is free from encumbrances or is not burdened with arrears of land revenue or is not already hypothecated to Government for a loan previously obtained. A similar enquiry shall be made in the case of lands offered by the sureties as collateral security, care being taken to see that the surety is not only the registered holder but the real owner of the land, and that if he is not sole owner, the land is not charged beyond the extent of his own individual interest thereon except with the written consent of the joint owners.

The applicant shall, in all cases, be required to produce an encumbrance certificate in respect of the property offered as security both primary and collateral, for a period not less than twelve years prior to the date of application for the loan.

(ii) Every such notice shall specify the sum applied for, the nature of the scheme and the nature of the security proposed for the loan and shall inform the landholder that, if he desires to make any objections to the loan, he should, within one month after the service of such notice, signify them in writing to the authority or officer competent to sanction the loan.

(iii) The landholder or his local agent or manager may object to the grant of the loan on the following grounds and on no others:—

(1) that the applicant has no occupancy right in the land offered as security, or

(2) that by reason of the improvement affecting another ryot's holding the landholder has a prior right to resume such improvement.

(iv) If the landholder or his local agent or manager does not within the time specified in sub-rule (ii), signify his objection on either of the grounds mentioned in sub-rule (iii) or if the authority or officer competent to sanction the loan after considering any objection made decides that the applicant is an occupancy ryot and that he is entitled to make the improvement and finds that the value of the occupancy right either by itself or taken with the other security furnished by the applicant is sufficient for the loan, such authority or officer may sanction the loan.

IX. *The nature of the security required.*—No loan shall be granted unless the value of the security offered exceeds by at least one-third—the amount of the loan applied for. The nature of the security to be required shall be as follows:—

(a) *In the case of pumping installations.*—The land to be irrigated which shall ordinarily include the site of the installation unless it is land classed as perumboke.

In estimating the value of the applicant's interest in the land, only the value of the land prior to the installation shall be taken into account. If the value of such interest is not sufficient for the grant of the loan then one or more of the items specified in clause (b) shall be offered as collateral security.

(b) *In all other cases.*—One or more of the following, namely:—

(i) Lands belonging to the applicant;

(ii) lands belonging to other persons who are willing to become his sureties,

(iv) personal security of the applicant or the joint personal security of the applicant and one or more other persons, provided that the amount covered by such security does not exceed Rs. 250.

X. *Authorities and officers competent to sanction loans and their powers of sanction.*—The following authorities and officers shall be competent to sanction loans not exceeding in each case the sums specified against them:—

Collector, Rs. 2,500.

In the case of loans sanctioned by the Government or the Board of Revenue the loan order shall be issued by the Collector and in other cases the loan order shall be issued by the officer competent to sanction the loan. The security bond or bonds to be taken from the borrower and his surety, if any, shall be in such one or more Forms VI to IX hereto annexed, as may be applicable to the case.

(ii) Where the loan is sanctioned for the purchase and erection of any plant, the purchase and erection shall be made by the Director. The applicant in such cases shall execute an agreement in Form X hereto annexed authorising the Director to purchase and erect the plant and agreeing to treat the amount spent by the Director from time to time on such purchase and erection and debited to the applicant's account as a loan actually paid to him. The Director shall give intimation to the authority or officer who sanctioned the loan each time he draws an amount on the applicant's behalf of the date of the drawal and the amount drawn. The Director shall proceed to purchase and erect or cause to be erected the plant, handing over to the applicant any balance that may remain after payment of the cost of purchase and erection and of the departmental charges for inspection and estimating purchasing and erection the plant, which shall cover the cost of supervision until the plant is handed over to the applicant. The Applicants whose applications are pending disposal when the rate of interest is raised shall be given an opportunity of agreeing to the altered rate or of withdrawing their applications.

WORKING CLASS COST OF LIVING INDEX NUMBERS FOR MADRAS CITY—OCTOBER 1941.

INDEX STATIONARY.

The cost of living index number for the working classes in Madras City for October 1941 works out to 115 which is the same as the index for the previous month.

As compared with the previous month, the index for the food group rose slightly owing to an increase in the prices of some vegetables, garlic and gingelly oil.

A rise in the price of firewood was mainly responsible for raising the index for the fuel and lighting group by four points to 149.

The group indices in respect of clothing, housing and miscellaneous continued steady at 125, 100 and 101 respectively.
